Axis Q2901-E Thermal Camera

Delivers thermal imaging in 336x256 resolution.

Supports up to six temperature alarm zones.
Two kinds of alarms triggered by a devi-ation of the temperature: if the temperature goes beyond a set limit, or if it increases too rapidly.

Spot temperature functionality to view the temperature of a particular area.

Isothermal palettes highlight temperature-spans in the image, making it easier to visualize hot spots to identify overheated equipment or areas.
