I.I.S.

## D.R.A.D. 3000

The I.I.S. (D.R.A.D. 3000) Dose Rate Awareness Display informs surrounding workers what the dose rates are in the field they are working in.

When connected to a telemetry base station, the I.I.S. Transmitter collects the data received from a DMC 3000 and retransmits the dose rate data back to an I.I.S. D.R.A.D.
