

# Vocera Hands-Free Communication Devices

Be Connected. Be Protected.

The pace and unpredictability of today's work environment requires mobile workers to continuously juggle multiple tasks, reprioritize and manage interruptions. To address the mounting challenges that mobile workers face daily, they need tools that help streamline communication, minimize interruptions, and safeguard staff – without compromising service.

## The Natural, Intuitive Way to Communicate

Simplify communication and workflow and improve staff safety with Vocera hands-free communication devices. The Vocera Smartbadge and Minibadge are lightweight and purpose-built for the mobile work environment.

Just say, "OK Vocera" to wake up either device and start communicating safely, even under PPE. Make and receive calls hands-free, and reach people by name, role, or group. In an emergency, activate the dedicated panic button to reach security personnel quickly.

### Smartbadge

With the Smartbadge, combine smartphone usability and hands-free mobility. Use the ample touchscreen to find contacts quickly, with a real-time view of staff across multiple sites. Read and type text messages, and receive notifications with context.

### Minibadge

Use the Minibadge to make and receive calls and listen and respond to messages and notifications hands-free. Triage the urgency of events fast with visual indicators. Use the Minibadge with your smartphone to view and share detailed event and team context for messages and notifications when needed. Take calls on the Minibadge or transfer them to your smartphone. For privacy, use a headset.

## Complexity Begs Simplicity

With Vocera hands-free communication devices, mobile workers can:

- **Communicate intuitively:** Make, receive, transfer, and forward calls using a natural, voice-driven experience.
- **Improve staff safety:** Communicate safely, even under PPE, to help reduce the spread of infection. In an emergency, activate the dedicated panic button to discreetly open a communication channel to the response team.
- **Manage availability:** Set your device to do-not-disturb mode and accept or decline event notifications. Avoid communication dead ends with call escalation to the next available person or team.
- **Easily reach the right person or team:** Reach contacts by saying their name, role, group, or extension. Page a user or group. Call people inside or outside the work environment.
- **Triage events quickly:** Determine the urgency of events via notifications with detailed context on the Smartbadge or LED indicators on the Minibadge.
- **Leverage smartphone functionality:** Get smartphone usability and hands-free mobility with the Smartbadge's ample touchscreen. Use the Minibadge with a smartphone to view and share detailed event and team context.

Choose the right device for your role and workflow
